SAVE TIME & MONEY, GET A BETTER FINISH

Introducing the "Teg Tab" for easy grid & partition installation to suit tegular/rebated edge panels

**Teg Tab**
The Labor Saver

- Saves time & gives a consistent quality finish.
- No more hand rebating panels
- Easy snap-on fit
- Easier for training staff
- Transform grid format from square edge to tegular/rebate simply by adding or removing Teg Tab's.

## Installation is simple, just prepare, click, slide and one cut

Prepare

Install exposed grid system the depth of tegular edge of the ceiling panel higher than the wall angle .i.e. If a 6mm tegular edge then install above the wall angle by 6mm.

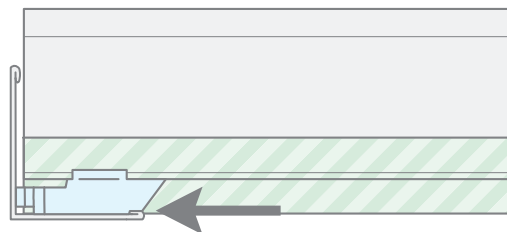

6-10mm

Click

Suits 15mm and 24mm grid. Place the Teg Tab onto the grid with the angled side facing you. With a gentle press the Teg Tab clicks into place.

Slide

Slide the Teg Tab across until it meets the wall. To finish, cut ceiling panels as per square edge. (No more hand forming tegular edge and preimeter)
